

## DRAFT Delta Island Evaluation Criteria

### Population

- Permanent Population (1990)
- Town Population (1990; Name)
- Recreation Use (User-days 1995)

### Public Infrastructure

- Federal and State Highways (Miles, gross estimate)
- County Roads
- Value of Damageable Roads (\$1,000; 100 year flood plain)
- Water Supply Conveyance (Miles)
- State or Regional Parks (Acres)
- Flood-Control Levees, federal (Miles)
- Flood-Control Levees, local (Miles)

### Private Development

- Housing Units
- Value of Damageable Housing (\$1,000; 100 year flood plain)
- Residential Lands (Acres)
- Value of Damageable Commercial Property (\$1,000; 100 year flood plain)
- Commercial Lands (Acres)
- Commercial-Recreation Lands (Acres)
- Recreation Resorts
- Value of Damageable Crops (\$1,000; 100 year flood plain)
- Agricultural Lands (Acres)
- Industrial Lands (Acres)
- Railroad Mainlines (Miles, gross estimate)
- Natural Gas Fields and Storage
- Natural Gas Pipelines
- Power Transmission Lines (Miles, gross estimate)

### Water Quality

- Salinity Intrusion Induced (% salinity increases @ Clifton Court)
- Critical to Water Quality - SB 34

### Cultural Resources

- Known Archaeological Sites
- Potential Historical Sites

### Habitat and Special-Status Species Interior to Levee Systems

- Native Vegetation (Acres)
- Wetlands (Acres)
- Riparian Habitats (Acres)
- Agricultural Waterfowl Habitats (Acres)
- Known Special-Status Plant Occurrences (by 1995)
- Known Special-Status Wildlife Occurrences (by 1995)
- Natural Resource Areas with Significant Habitat Values

### Other Evaluation Criteria

- Adjacent acreage at risk (Acres)
- Acreage protected per levee mile (Acres/Miles)

## DRAFT Objectives

Resources of Local Concern

Resources of Statewide Concern

Minimize Effects on Adjacent Islands

Recreation

Life and Personal Property

Ecosystems

Agricultural Production

Water Quality

## DRAFT Objectives and Primary Criteria

### Recreation

- Recreation Use (User-days 1995)
- State or Regional Parks (Acres)
- Recreation Resorts
- Natural Resource Areas with Significant Habitat Values

### Life and Personal Property

- Permanent Population (1990)
- Town Population (1990; Name)
- Recreation Use (User-days 1995)
- Housing Units
- Value of Damageable Housing (\$1,000; 100 year flood plain)

### Ecosystems

- Salinity Intrusion Induced (% salinity increases @ Clifton Court)
- Critical to Water Quality - SB 34
- Native Vegetation (Acres)
- Wetlands (Acres)
- Riparian Habitats (Acres)
- Agricultural Waterfowl Habitats (Acres)
- Known Special-Status Plant Occurrences (by 1995)
- Known Special-Status Wildlife Occurrences (by 1995)
- Natural Resource Areas with Significant Habitat Values

### Agricultural Production

- Value of Damageable Crops (\$1,000; 100 year flood plain)
- Agricultural Lands (Acres)
- Acreage protected per levee mile (Acres/Miles)

### Water Quality

- Salinity Intrusion Induced (% salinity increases @ Clifton Court)
- Critical to Water Quality - SB 34

### Resources of Local Concern

- Permanent Population (1990)
- County Roads
- Value of Damageable Roads (\$1,000; 100 year flood plain)
- State or Regional Parks (Acres)
- Residential Lands (Acres)
- Commercial Lands (Acres)
- Commercial-Recreation Lands (Acres)
- Agricultural Lands (Acres)
- Industrial Lands (Acres)

### Resources of Statewide Concern

- Federal and State Highways (Miles, gross estimate)
- Water Supply Conveyance (Miles)
- Agricultural Lands (Acres)
- Railroad Mainlines (Miles, gross estimate)
- Natural Gas Fields and Storage
- Natural Gas Pipelines
- Power Transmission Lines (Miles, gross estimate)
- Salinity Intrusion Induced (% salinity increases @ Clifton Court)
- Critical to Water Quality - SB 34
- Known Archaeological Sites
- Potential Historical Sites
- Wetlands (Acres)
- Known Special-Status Plant Occurrences (by 1995)
- Known Special-Status Wildlife Occurrences (by 1995)
- State or Regional Prks (Acres)

### Minimize Effects on Adjacent Islands

- Adjacent acreage at risk (Acres)
